

# IN-DEPTH EXPERIENCE HELPING GOV'T CUSTOMERS IN THEIR CLOUD/AGILE/DevSecOps TRANSFORMATION

Simple Technology Solutions is the **only** federal small business that is also 8(a) & HUBZone with **advanced** partnerships w/ Amazon Web Services, Microsoft Azure & Google Cloud Platform

8(a) HubZone Digital Government Consultancy

## WHY CHOOSE STS

Simple Technology Solutions (STS) has in-depth experience helping federal & state government agencies in their Agile/DevOps/Cloud adoption & transformation. We understand how people, process and technology work together to dramatically transform how government IT organizations improve their ability to deliver quality software & cloud- enable IT services to their end-users. In addition to being experienced government contractors, we are experienced coaches and thought-leaders guiding government IT leaders through the Agile/DevOps/Cloud mental, skill & organizational shifts.

As a company, we believe that **People + Process + Technology** drive implementation of Lean processes that focus on implementation of automated processes, speed delivery of quality software, while simultaneously improving software quality.

### PEOPLE

The implementation of Agile & DevOps are primarily an organization change initiatives, where the organization uses "Systems Thinking" and "Lean" processes. The payoff is alignment of support efforts to focus on business value delivery for that organization's customers/stakeholders. STS provides Enterprise Agile/DevOps/Cloud coaching, mentoring & workshops that change the mindsets & perspectives of the organizational stakeholders that cut across traditional mission & IT functional boundaries.

### PROCESS

We drive implementation of Lean processes that focus on implementation of automated processes, speed delivery of quality software, while simultaneously improving software quality. Our process methodology enables: Continuous Integration (CI), Continuous Testing (CT) and Continuous Delivery (CD).

### TECHNOLOGY

We have experienced engineers to support installation, configuration, and optimization of the leading Enterprise Agile Software Development, DevOps & Cloud migration tools, including:

- JENKINS • HYGIEIA • JIRA • CONFLUENCE • MAVEN/MSBUILD • SVN/GITHUB
- SONARQUBE • SELENIUM • CHEF • LIQUIBASE • DELPHIX • APPDYNAMICS • SOLARWINDS
